

Contents

Preface	1	
1. An outline of types of wire cutters		2
Two-handed wire		2
Trough system		2
Slat top cutter		3
Slat cutter with bow cutter combination		4
Scratch rods		5
Foot and arm operated cutters		5
Pneumatic/hydraulic cutters		7
Larger wire-based cutters		8
Box tunnel cutting		11
2. Some practical methods of altering the spacing of wire cuts from frames		12
Parallelogram cutting		12
Comb side plate		13
One interesting function of the side plate system		14
Elevating the frames		14
Multi-faced guide rods		15
Wire lengths		16
Pre-wired bolts		16
Swinging gate cutting		16
3. Final Trimming		17
Beak cutting		17
Saw side plate		18
4. Integeric nominal cutting apparatus (INCA)		19
Format 1		19
Format 2		19
Conclusion		20
Practicalities of a simple INCA cutting system		20
5. Cheese slicing		21
6. Appendix: List of abbreviations		22
